

PPL Program on One Page

Requirements:

- **45h** of flight time,
- online theoretical course self-study with quizzes*.
- **9** online internal final exams,
- **9** CAA in person exams,
- one **final checkride**.

Costs:

- School services and online theory***: 1000 EUR
- Flight instruction hour**: 180 EUR – 225 EUR (depends on airplane)
- Ground instruction hour: 60 EUR
- ICAO English examination: 180 EUR
- Medical*: 250 EUR
- CAA Exams*: 35 EUR
- Final checkride*: 250 EUR
- Landing fees: 400 EUR

*Note: Costs paid to external providers may vary.

**Cost is fixed for 6 month since contact sign date and then may vary depending on fuel

***Student gets 6 month to finish the theory, prolongation may carry additional costs

Totals:

on a Cessna Skyhawk (C172)	on a Aerospool Dynamic (WT9)
$2400 + 45 \cdot 225 + 10 \cdot 60 = \mathbf{13125}$	$2400 + 45 \cdot 180 + 10 \cdot 60 = \mathbf{11100}$

The above totals are calculated assuming 45h of flight training and 10h of ground training, no extensions on the theoretical course and first try success on CAA exams.

It is possible to take a discovery flight (first flight lesson) before starting the course. After signing the contract, the student pays the school service fee and gains access to the online course. After completing the first 3 subjects in self study (principles of flight, aircraft general knowledge and communication) the student may begin flight practice.

We encourage passing our internal exams as well as CAA exams in 3 batches starting with the subjects above.

Payment for flight and ground training does not require any advance – pay as you go.

Theoretical tutorage is available at additional cost of 25 - 50 EUR per hour.
